

For All Your U.S.A. Certification Needs...

IAPMO R&T Lab Can Help

Our People Make the Difference. There is No Substitute for Experience.

Is your company looking to enter the USA, Canadian or Australian markets but has questions regarding local standards and certification requirements? IAPMO R&T Lab can help.

IAPMO has been serving the U.S. plumbing and mechanical industry for over 80 years. IAPMO R&T Lab, a division of The IAPMO Group, is a major resource for independent testing, research and technical services, specializing in plumbing and mechanical products. Our goal is to provide quality testing services at a reasonable price, in a timely manner. One-Stop-Testing is available for manufacturers, distributors and importers to conduct testing and assist in gaining product listing/certification in the United States, Canada and Australia.

IAPMO R&T Lab understands the challenges companies face entering new markets. Let us put our experience to work for you.

Our services include:

- **Certification Testing • Quality Control**
- **Consulting • Material Testing • NSF/ANSI 61**
- **Design Analysis • Protocol Development**
- **On-site Testing at Manufacturer's Facility**
